Outreach, Culture, and Engagement at TRS

The Outreach, Culture, and Engagement (OCE) team focuses on the impact that these three areas have on employees and the organization to help TRS keep a pulse on what is happening at the employee level.

Employees are where the work begins, gets done, and generates outcomes. OCE's work supports the sustainment of a workplace environment conducive to employees doing their best work on behalf of the TRS members and gaining professional satisfaction from it. This includes efforts for leveraging employee strengths, expanding outreach for the talent pipeline and the HUB program, enhancing organizational culture, and increasing employee engagement.

Let's MEET

Meet Efficiently, Effectively & Timely

Maximizing Your Work through Best Practices

Making the most of your workday is a priority. TRS wants to help you maximize time by sharing ways to do so. The *Let's MEET* initiative provides tools you can use right now. TRS launched the campaign in January as part of its ongoing effort to integrate efficiency daily. The yearlong initiative, brought forth by Deputy Director Caasi Lamb, promotes meeting best practices – techniques you can employ to improve all you do. *Let's MEET* kicked off with “5 to Thrive” followed up by “Decision Tree – To Meet or not to Meet.”

Each month a best-practice topic is highlighted, and resources are shared on the [Let's MEET page](#) on the intranet. There you'll find all the topics and videos explaining what you can implement.

Let's MEET has launched but YOU can help it land.

How to Get Involved

Step 1

Outreach, Culture, and Engagement at TRS

The Outreach, Culture, and Engagement (OCE) team focuses on the impact that these three areas have on employees and the TRS keep a pulse on what is happening at the employee level.

Employees are where the work begins, gets done, and generates outcomes. OCE's work supports the sustainment of a workplace conducive to employees doing their best work on behalf of the TRS members and gaining professional satisfaction from it. This is achieved by leveraging employee strengths, expanding outreach for the talent pipeline and the HUB program, enhancing organizational culture, and increasing employee engagement.

Step 2

Employee Resource Groups and OCE Council

What is an ERG?

ERG stands for **Employee Resource Group**, which is a group of employees who voluntarily join together in their workplace based on shared characteristics or life experiences. Employee resource groups function to provide employees with:

- support
- career development opportunities,
- professional networking, and
- overall contributions to personal development in the workplace.

Although these groups are rooted in common characteristics, they are also aligned with the mission, values, goals, business practices and objectives of the organization while enhancing organizational culture and employee experience. All TRS employees are welcome to join any and all ERGs.

1949
Legislation expanded membership eligibility to all employees of public education institutions.

2001
Legislation passed to create TRS-ActiveCare, a health plan for public school employees and dependents.

2021
SB 1444 passed that allowed districts to exit ActiveCare for the first time since the program started.

2023
SB 1854 allows TRS to offer dental and vision plans to retirees.

1937
TRS officially formed. 38,000 teachers participated in first year of existence.

TRS-ActiveCare and TRS-Care cover different populations, have different benefit plans, and are funded differently.

2024 TRS Health Annual Report Highlights

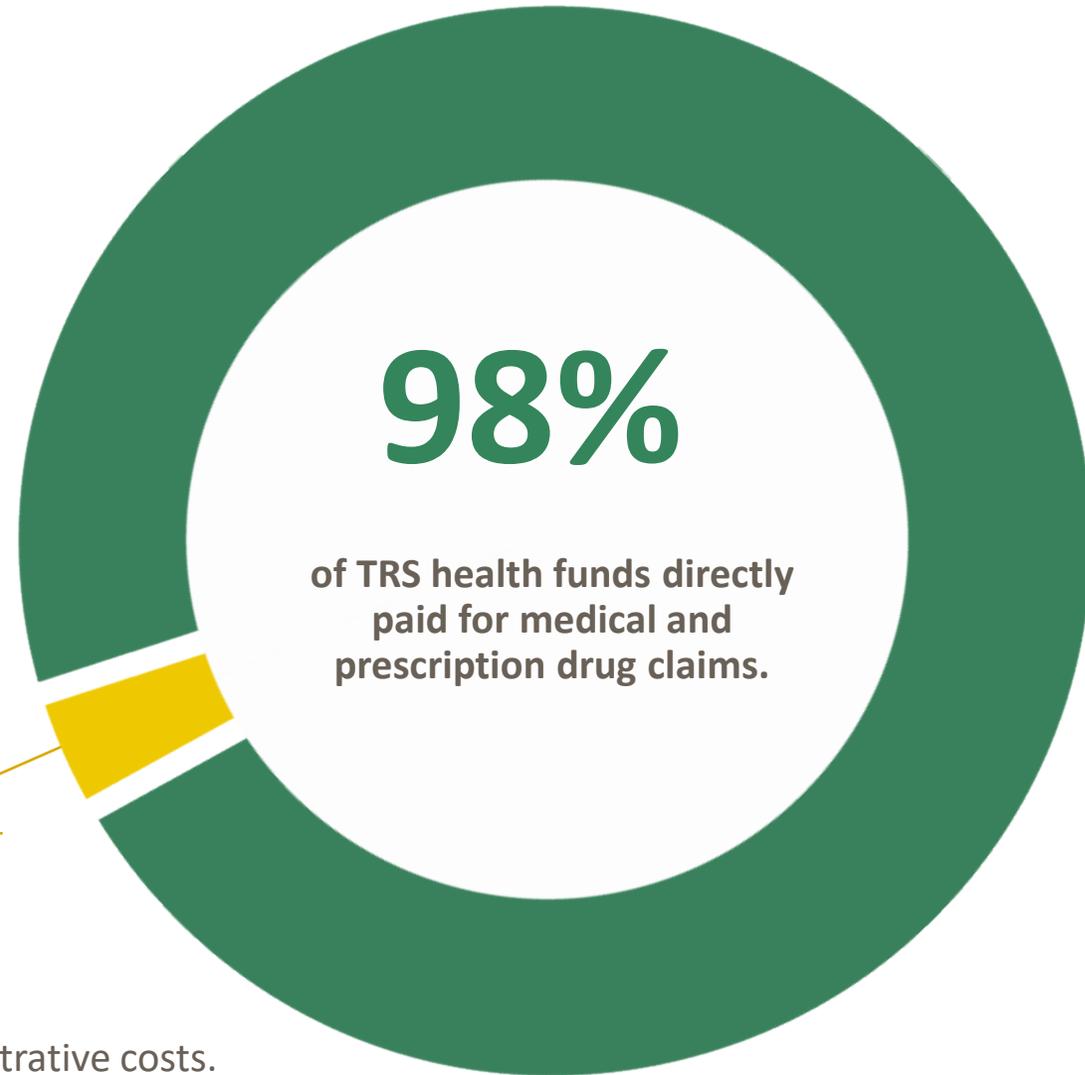

Delivering high-value plans while actively managing costs

KEEPING LOW ADMINISTRATIVE COSTS

2%

of funds went to administrative costs.

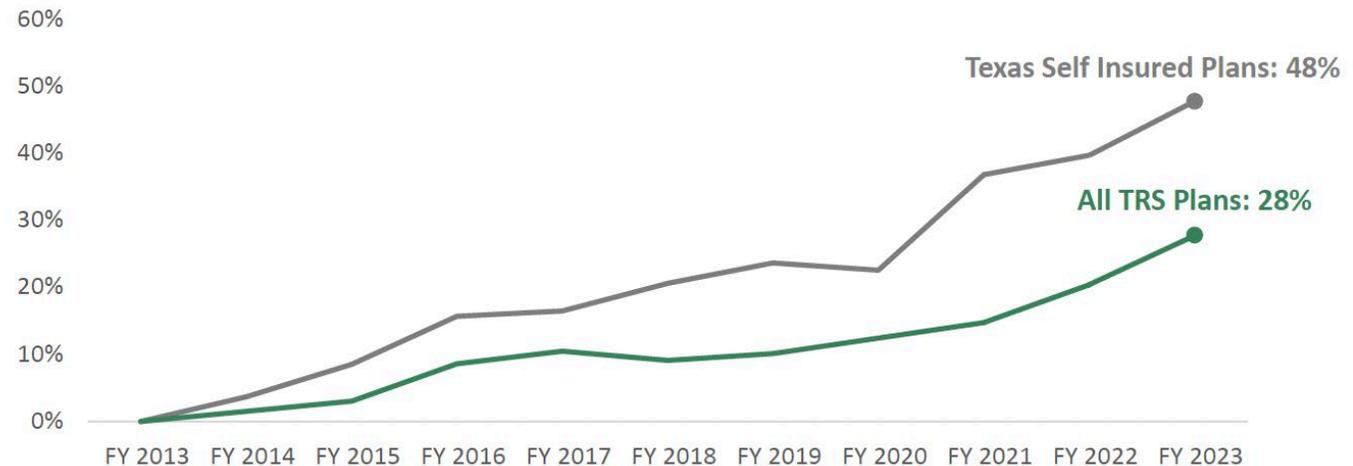

98%
of TRS health funds directly paid for medical and prescription drug claims.

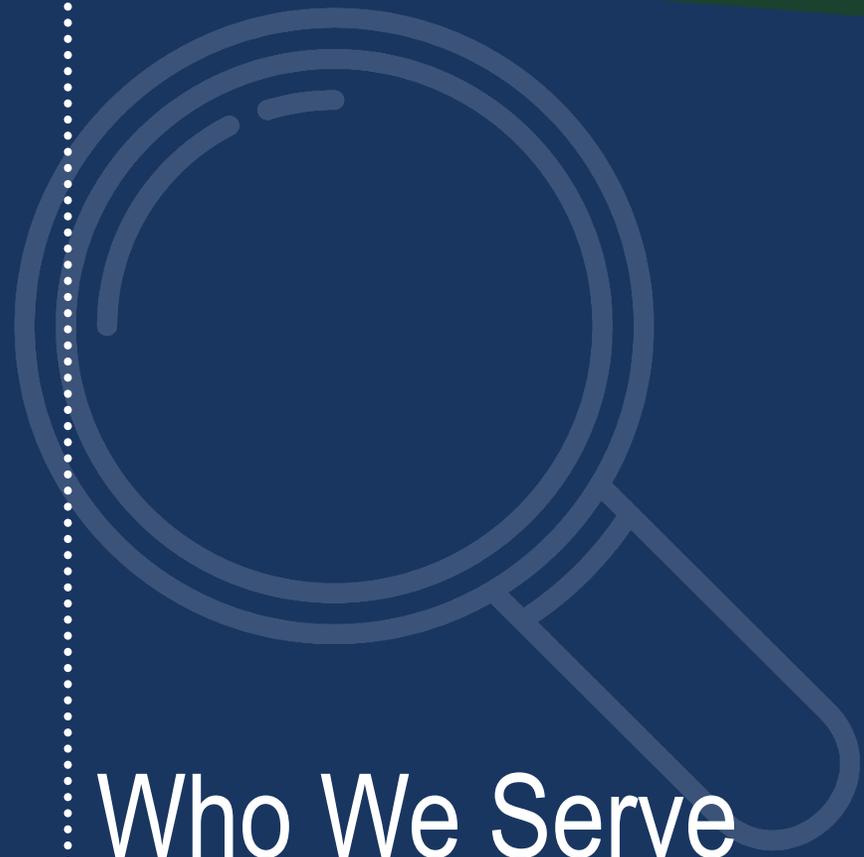

Cumulative cost growth
**42% less than that of
TRS' peers.**

**TRS plans
experienced nearly
half the cost
growth of Texas
self-insured plans.**

Cumulative Increase in Per Member Costs Since 2013

Costs reflect allowed charges to both the plan and the participants. These are net of rebates. TRS plans include all self-insured ASO plans. Milliman data for Texas ASO does not include pharmacy rebates. The comparison does not adjust for changes in plan design or demographics over time.

IMD Overview

BUSINESS
GRAPH

Top Pension Fund

- 16th Largest Pension Fund in the World
- 6th Largest Pension Fund in the U.S.
- Largest Public Pension Trust Fund in Texas
- Manages about \$200 billion in Assets
- Serving 2 million members
- 1 of every 19 Texans is part of TRS

IMD Goals

- Improve the retirement security of Texas educators by prudently investing and managing trust assets.
- Achieve a long-term rate of return that:
 - Exceeds the assumed actuarial rate of 7%
 - Exceeds the long-term rate of inflation by 500 basis points (bp)
 - Exceeds the return of the Fund Policy Benchmark
- Control risk through proper diversification of asset classes.

TRS Fund Strengths

Large

TRS manages the sixth largest U.S. public pension fund with a market value of \$209.6 billion as of Aug. 31, 2024. The fund's size allows for opportunities not available to most of the marketplace.

Long Term

TRS' size and membership composition allow for a long-term view in managing the investment portfolio, while avoiding short-term investment limitations and constraints.

Liquid

With \$131.9 billion in highly liquid assets as of Aug. 31, 2024 (about 63% of the total fund), the TRS portfolio has access to liquidity in excess of what is needed to pay monthly benefits.

Low Leverage

The TRS portfolio has low levels of leverage. Because of this, TRS can better withstand periods of market volatility and is less likely to sustain permanent capital losses during market downturns.

Local

TRS has a member center in El Paso and is exploring another location. The investment team opened a London office in 2015, so TRS has access to U.K. and European opportunities.

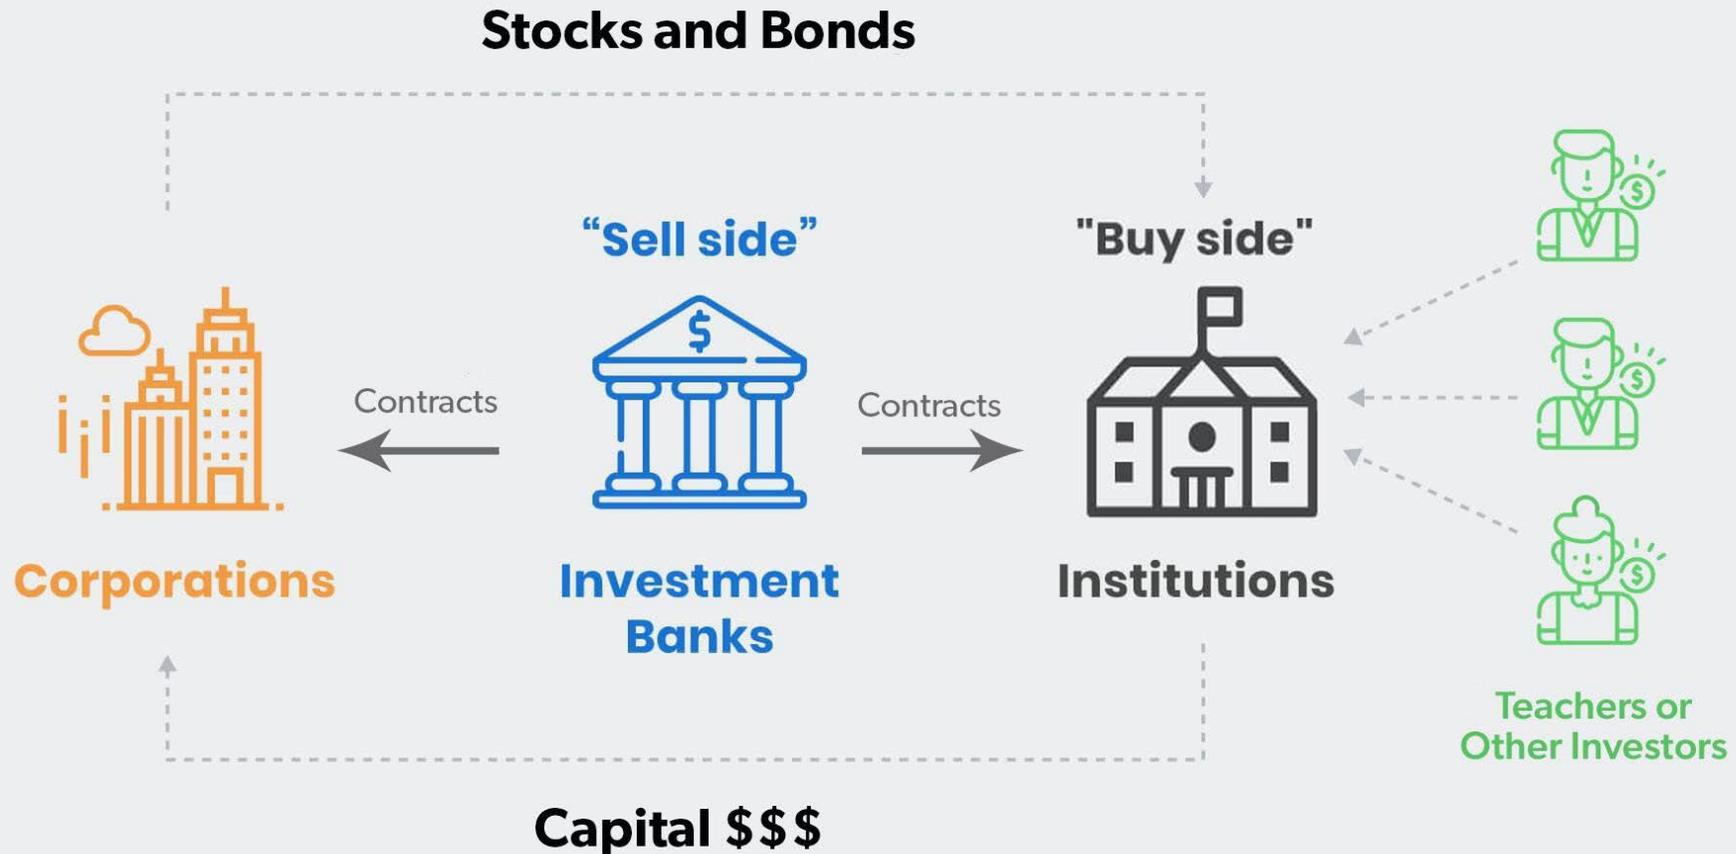

Sell Side vs. Buy Side - What's the Difference?

Sell Side

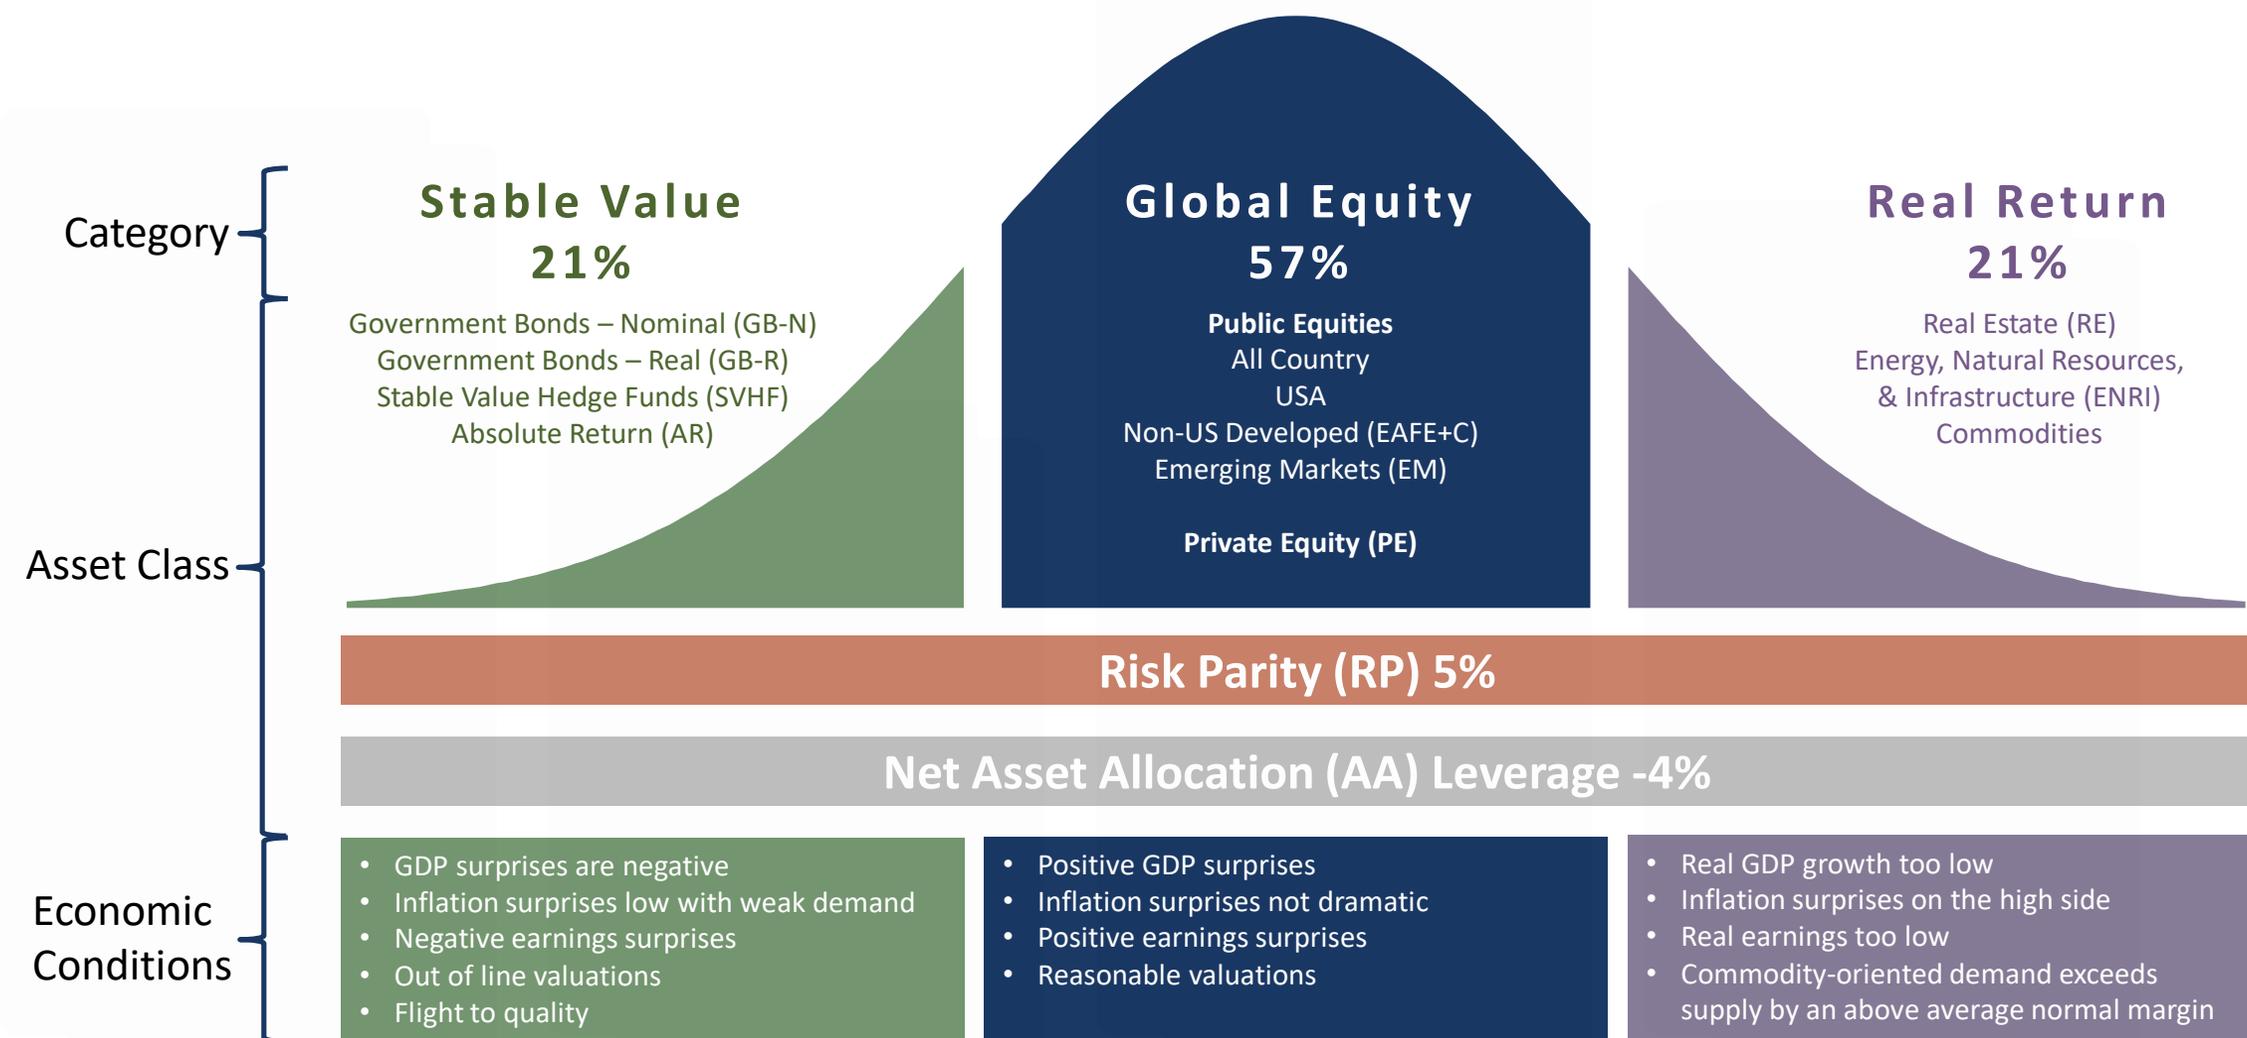

This includes banks, advisory firms, etc., who facilitate the sale of securities on behalf of client corporations.

Buy Side

Firms in the financial market that purchase and invest securities with the goal of yielding profit. This includes pension funds who are investment managers like TRS, endowments and foundations, and hedge funds who are hybrid (in that they both raise capital like the sell side and manage capital like the buy side).
