### Measurement Year Ended 8/31/23

(Instructions are provided below in parentheses and should not be included in your note disclosures.)

#### **Summary of Significant Accounting Policies**

Other Post-Employment Benefits. (OPEB) The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

#### Note X. Defined Other Post-Employment Benefit Plans

#### A. Plan Description

The [employer] participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing, defined benefit OPEB plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

#### B. OPEB Plan Fiduciary Net Position

Detail information about TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <a href="http://www.trs.texas.gov/Pages/about\_publications.aspx">http://www.trs.texas.gov/Pages/about\_publications.aspx</a>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

#### C. Benefits Provided

TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

### Measurement Year Ended 8/31/23

(Instructions are provided below in parentheses and should not be included in your note disclosures.)

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates		
	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse		
and Children	468	408
Retiree and Family	1,020	999

#### D. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and participating employers based on active employee compensation. The TRS Board does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65 percent of salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75 percent of each active employee's pay for fiscal year 2023. The following table shows contributions to the TRS-Care plan by type of contributor.

#### **Contribution Rates**

	<u>2023</u>
Active Employee	0.65%
Non-Employer Contributing Entity (State)	1.25%
Employers	0.75%
Federal/Private Funding remitted by Employers	1.25%
Employer # XXXX - 2023 Employer Contributions	\$xxx,xxx,xxx
Employer # XXXX - 2023 Member Contributions	\$xxx,xxx,xxx
Employer # XXXX - 2023 NECE On-behalf Contributions	\$xxx,xxx,xxx

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether they participate in the TRS-Care OPEB program). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

### Measurement Year Ended 8/31/23

(Instructions are provided below in parentheses and should not be included in your note disclosures.)

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87<sup>th</sup> Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

#### E. Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2022. Update procedures were used to roll forward the total OPEB liability to August 31, 2023. The actuarial valuation was determined using the following actuarial assumptions: Actuarial Assumptions can be found in the 2023 TRS ACFR, Note 9, page 79.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023:

Rates of Mortality
Rates of Retirement
Rates of Termination

Rates of Mortality
Rates of Disability
General Inflation
Wage Inflation

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

#### Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2022 rolled forward to	
	August 31, 2023	
Actuarial Cost Method	xxx	
Inflation	x.x%	
Single Discount Rate	x.x%	
Aging Factors	xxx	
Expenses	xxx	
Projected Salary Increases	x.x% to x.x%	
Healthcare Trend Rates	x.x% to x.x%	
Election Rates	xx %	
Ad hoc post-employment benefit changes		

### Measurement Year Ended 8/31/23

(Instructions are provided below in parentheses and should not be included in your note disclosures.)

#### Other Information:

(Other information you may want to include in your note disclosure is listed in the TRS 2023 ACFR on pages 79 and 80)

#### **Discount Rate**

A single discount rate of 4.13 percent was used to measure the total OPEB liability. This was an increase of 0.22 percent in the discount rate since the previous year. *The Discount Rate can be found in the 2023 TRS ACFR on page 80.* 

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2023, using the Fixed Income Market Data/Yield Curve/ Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds

#### F. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (x%) in measuring the Net OPEB liability.

	1% Decrease in	Current Single Discount	1% Increase in
	Discount Rate (3.13%)	Rate (4.13%)	Discount Rate (5.13%)
[Entity's] proportionate share of the net OPEB			
liability:	\$xxx,xxx	\$xxx,xxx	\$xxx,xxx

## G. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

On August 31, 2023, the [employer] reported a liability of \$\_\_\_\_\_ for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the [employer]. The amount recognized by the [employer] as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the [employer] were as follows:

[Employer's] Proportionate share of the collective net OPEB liability	Şxxx,xxx
State's proportionate share that is associated with [employer]	\$xxx,xxx
Total	\$xxx,xxx

### Measurement Year Ended 8/31/23

(Instructions are provided below in parentheses and should not be included in your note disclosures.)

The net OPEB liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

On August 31, 2023, the employer's proportion of the collective net OPEB liability was xx.x% which was an increase (decrease) of x.xx% from its proportion measured as of August 31, 2022.

The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	1% Decrease in	Current Single	1% Increase in
	Healthcare Trend Rate	Healthcare Trend Rate	Healthcare Trend Rate
[Entity's] proportionate			
share of the net OPEB			
liability:	\$xx,xxx	\$xx,xxx	\$xx,xxx

#### **Changes Since the Prior Actuarial Valuation**

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability (TOL) since the prior measurement period: *These can be found in the 2023 TRS ACFR on page 80.* 

• The single discount rate changed from 3.91 percent as of August 31, 2022 to 4.13 percent as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

#### **Changes of Benefit Terms Since the Prior Measurement Date**

There were no changes in benefit terms since the prior measurement date.

The amount of OPEB expense recognized by (Employer) in the reporting period was \$ xxx,xxx.

For the year ended August 31, 2023, the [employer] recognized OPEB expense of \$\_\_\_\_\_ and revenue of \$\_\_\_\_\_ for support provided by the State. (Refer to the 2023 Allocation (Schedule) of Non-Employer Contributing Entity On-Behalf Payments (Contributions) for this information posted on the TRS website under GASB Statements 74 & 75.)

On August 31, 2023, the [employer] reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources: (The amounts shown below will be the cumulative layers for the current and prior years combined.) *The current year* 

### Measurement Year Ended 8/31/23

(Instructions are provided below in parentheses and should not be included in your note disclosures.)

amounts can be found on the GASB 75 Plan Level Schedule of Deferred Inflows and Outflows file, collective plan totals (future amortization) in columns G and H.

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Difference between Expected and Actual Economic Experience	\$xxx,xxx	\$xxx,xxx
Changes in Actuarial Assumptions	XXX,XXX	xxx,xxx
Difference between Projected and Actual Investment Earnings	xxx,xxx	xxx,xxx
Changes in Proportion and Difference between Employer		
Contributions and Proportionate Share of Contributions	xxx,xxx	xxx,xxx
Contributions paid to TRS subsequent to the measurement date		
of the net OPEB liability [to be calculated by employer]		
	xxx,xxx	
Total	\$xxx,xxx	\$xxx,xxx

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Measurement Year ended August 31	OPEB Expense Amount	Balance of Deferred Outflows (Deferred Inflows)
2024	\$xx,xxx	\$xx,xxx
2025	XX,XXX	xx,xxx
2026	xx,xxx	xx,xxx
2027	xx,xxx	xx,xxx
2028	xx,xxx	xx,xxx
Thereafter	xx,xxx	xx,xxx
